

INTRODUCTION FOR JAN SPENCE

Our speaker today is a true innovator.

Her family introduced peach Jell-O to the world through a national commercial in the 1970's.

She began her sales career at age 10 selling donuts for summer camp. She then sold vacuum cleaners door-to-door at age 18, and went on to consult with national accounts such as Wal-Mart, Pillsbury and Frito-Lay.

Jan even fulfilled a life-long dream to play women's professional full-tackle football.

Through speaking, training and coaching, Jan engages individuals and companies to realize their core values and participate in reaching their goals and this TEDx speaker comes here today to inspire and teach us.

So put your hands together and let's welcome, Jan Spence!
